

10x6 3D Layout (4x16 cable set) ABEM | MALÅ

The **COLOURED** NUMBERS are the electrode take-out numbers printed on the cables

 are electrodes, and the names shown in

$X=7$ the “Electrodes” and “Results” tabs
 $Y=5$

are co-ordinates of the electrodes, in X and Y; multiplying these values by the electrode separation gives distance

*** & * = disconnected take-outs**
